6. BACKGROUND: (WHY IS THE ACTION NECESSARY, WHAT GOAL WILL BE ACHIEVED)

City staff applied for the SRTS grant last year December 2016 for the same 4 locations. There was a large pool of submitted projects to pull from and we were not awarded the grant. Staff is reapplying again this year for design and construction for connecting existing sidewalk and providing proposed sidewalk in the areas around Arnold High School, Surfside Middle School, and Hutchinson Beach Elementary to give local children a safe route to schools when they are within walking distance. Breakfast Point Schools are currently surrounded by sidewalks and provide both an adequate safe path to and from school. Since Hill Road is located within a 2 mile radius and contains Summerwood Subdivision staff suggested this roadway be include to help with a safe route to school for children in that area. The next cycle deadline is at the end of December and one of the requirements is a letter of support from the City Council.
