IV. ADA/504 STATEMENT:

The City of Panama City Beach makes great effort to ensure that its facilities, programs, services, and activities are available to those with disabilities. The City of Panama City Beach encourages its citizenry to report any facility, program, service or activity that appears inaccessible to the disabled. Furthermore, the City of Panama City Beach will provide reasonable accommodation to disabled individuals who wish to participate in public involvement or other events, with advance notification of seven (7) days.

Questions, concerns, comments or requests for accommodation should be made to the City of Panama City Beach's ADA Officer:

Name of ADA Officer: Lynne Fasone
Address: 17007 Panama City Beach Pkwy
Panama City Beach, FL. 32413
Phone number: (850) 233-5100 EXT 2230
FAX: (850) 233-5108
Email: ADA@pcbfl.gov

The ADA does not require the City of Panama City Beach to take any action that would fundamentally alter the nature of its programs or services or impose an undue financial or administrative burden.

Complaints that a program, service, or activity of the City of Panama City Beach is not accessible to persons with disabilities should be directed to the City's ADA Officer.

The City of Panama City Beach will not place a surcharge on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/services or reasonable modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.

ADA and Nondiscrimination Grievance Procedure

This Grievance Procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 ("ADA") and state and federal nondiscrimination laws. It may be used by anyone who wishes to file a complaint alleging discrimination on the basis of race, color, national origin, sex, age, disability, religion or marital status in the provision of services, activities, programs, or benefits by the City of Panama City Beach. The City of Panama City Beach's Personnel Policy governs employment-related complaints of discrimination.

The complaint should be in writing and contain information about the alleged discrimination such as name, address, phone number of complainant and location, date, and description of the problem. Alternative means of filing complaints, such as personal interviews or a tape recording of the complaint, will be made available for persons with disabilities upon request.

The complaint should be submitted by the grievant and/or his/her designee as soon as possible but no later than 60 calendar days after the alleged violation to the City's ADA Officer.

Within 15 calendar days after receipt of the complaint, the City's ADA Officer or his/her designee will respond in writing, and where appropriate, in a format accessible to the complainant, such as large print, braille, or audio tape. The response will explain the position of the City of Panama City Beach and offer options for substantive resolution of the complaint.

If the response by the City's ADA Officer or his/her designee does not satisfactorily resolve the issue, the complainant and/or his/her designee may appeal the decision within 15 calendar days after receipt of the response to Drew Whitman, City Manager or Holly White, Assistant City Manager or his/her designee.

Within 15 calendar days after receipt of the appeal, Drew Whitman, City Manager or Holly White, Assistant City Manager or his/her designee will meet with the complainant to discuss the complaint and possible resolutions. Within 15 calendar days after the meeting, Drew Whitman, City Manager or Holly White, Assistant City Manager or his/her designee will respond in writing, and, where appropriate, in a format accessible to the complainant, with a final resolution of the complaint.

All written complaints received by The City's ADA Officer or her designee, appeals to Drew Whitman, City Manager or Holly White, Assistant City Manager or his/her

designee, and responses from these two offices will be retained by the City of Panama City Beach for at least three years.

V. LIMITED ENGLISH PROFICIENCY (LEP) GUIDANCE:

Executive Order 13166 and title VI of the Civil Rights Act of 1964 prohibits recipients of federal financial assistance from discriminating based on national origin by, among other things, failing to provide meaningful access to individuals who are limited English proficient (LEP). All recipients and sub-recipients of federal funding are required to take reasonable steps to provide meaningful access to LEP individuals.

In adherence with Federal regulations, the City of Panama City Beach will make reasonable efforts to ensure its programs, services and activities are meaningfully accessible to those who do not speak English proficiently. To determine if or when alternate language usage is required for meaningful access, the City of Panama City Beach will assess the program, service or activity using the following four factors.

1. The number or proportion of LEP persons eligible to be served or likely to be encountered by City of Panama City Beach's programs, services or activities.
2. The frequency with which LEP individuals come in contact with these programs, services or activities.
3. The nature and importance of the program, service, or activity to people's lives and;
4. The resources available to the City of Panama City Beach and costs.

1. Using 2020 census data, the City of Panama City Beach has determined that LEP individuals speaking English less than well represent approximately 3.30% of the community. The City of Panama City Beach realizes that such statistical data can become outdated or inaccurate. Therefore, the City of Panama City Beach contacted local law enforcement, social services agencies and the school board to validate the proportion of LEP served by those entities. Spanish was reported to be the prevalent LEP language.

2. The City of Panama City Beach has not received requests for translation or interpretation of its programs, services or activities into Spanish or other language(s). In addition, City of Panama City Beach sponsored community outreach or public events are not attended by significant numbers of LEP individuals' speakers. Thus, the City of Panama City Beach estimates its contact with LEP individuals to be infrequent.

3. The City of Panama City Beach believes that transportation is of critical importance to its public, as access to health care, emergency services, employment, and other essentials would be difficult or impossible without reliable transportation systems. In that spirit, the City of Panama City Beach defines as essential any document that advises the public of how to access nondiscrimination and public involvement policies, as well as those that impact public safety, health and welfare and emergency services. A full list

of translated documents can be requested through the City Clerk or Communication Director.

4. The City of Panama City Beach is fortunate to house within/near its jurisdiction one or more institutions of higher education which have extensive language resources. Further, the City of Panama City Beach maintains cordial relationships with faith based and/or community organizations that offer competent language services at low or no cost to the City of Panama City Beach.

The analysis of these factors suggests that LEP services are not required at this time. At a minimum, the City of Panama City Beach commits to:

- Provide public notification in the LEP language of the availability of language assistance, free of charge with a 7-day notice.

The Agency understands that its community characteristics can change and that the four-factor analysis may reveal the need for more or varied LEP services in the future. As such, it will at least triennially examine its LEP plan to ensure that it remains reflective of the community's needs.

Persons requiring special language services should contact the City of Panama City Beach's ADA Officer:

Name: Lynne Fasone

Address: 17007 Panama City Beach Parkway, Panama City Beach Florida 32413

Phone number: (850) 233-5100 EXT 2230

Fax: (850) 233-5108

Email: ADA@pcbfl.gov

The City of Panama City Beach will conduct an annual assessment of this policy by reviewing census and county labor-market data or review of statistics from school systems, community agencies and organizations and comparison to demographic data.

The City's LEP Policy statement will be updated annually to ensure compliance with federal laws.

VI. PUBLIC INVOLVEMENT:

In order to plan for efficient, effective, safe, equitable and reliable transportation systems, the City of Panama City Beach must have the input of its public. The City of Panama City Beach spends extensive staff and financial resources in furtherance of this goal and strongly encourages the participation of the entire community. The City of Panama City Beach hosts an informative website that advises the public how it can access information and provide input. The Agency also holds public meetings, workshops and other events designed to gather public input on program/project planning and construction. Further, the City of Panama City Beach sponsors, attends, and participates in other community events to promote its services to the public. Finally,

the City of Panama City Beach is constantly seeking ways of measuring the effectiveness of its public involvement.

Persons wishing to request special presentations by the City of Panama City Beach; volunteer in any of its activities; offer suggestions for improvement; or to simply learn more about Agency programs and services should visit:

Or contact:

Name and Title: Debbie Ingram, Communication Director

Address: 17007 Panama City Beach Parkway, Panama City Beach Florida, 32413

Email: Debbie.Ingram@pcbfl.gov

Phone: 850-233-5100 EXT. 2261

VII. DATA COLLECTION:

FHWA regulations require federal-aid recipients to collect racial, ethnic and other similar demographic data on beneficiaries of or those affected by transportation programs, services and activities. The City of Panama City Beach accomplishes this through the use of census data, American Community Survey reports, Environmental Screening Tools (EST), driver and ridership surveys, its community development department and other methods. From time to time, the City of Panama City Beach may find it necessary to request voluntary identification of certain racial, ethnic or other data from those who participate in Agency programs, services or activities. This information assists the Agency with improving service equity and ensuring effective outreach. Self-identification of personal data to the City of Panama City Beach will *a/ways* be voluntary and anonymous. Moreover, the City of Panama City Beach will not release or otherwise use this data in any manner inconsistent with the FHWA regulations.

AMERICAN WITH DISABILITIES ACT

540 TRANSITION PLAN

Section 504 of the Rehabilitation Act of 1973 (Section 504), the Americans with Disabilities Act of 1990 (ADA) and related federal and state laws and regulations forbid discrimination against those who have disabilities. Furthermore, these laws require federal aid recipients and other government entities to take affirmative steps to reasonably accommodate the disabled and ensure that their needs are equitably represented in City programs, services and activities.

The City will make every effort to ensure that its facilities, programs, services, and activities are accessible to those with disabilities. The City will make every effort to ensure that its a programs, services and activities include representation by the disabled community and disability service groups.

Local agencies that have control over existing sidewalks or roadways must conduct self-evaluations of their facilities (including pedestrian rights of way) to determine accessibility. If the agency has more than fifty (50) employees, they must also develop a transition plan that details non-compliant features, the method that will be used to remediate them, the time for doing so, and the person responsible for ensuring compliance.

The City has inventoried the location of sidewalks and multi-use paths within the City Limits. As part of this ADA Transition Plan we have also inventoried, inspected and evaluated ADA Curb Ramps within City owned and maintained rights of way as part of our resurfacing program to determine/document existing physical barriers and to ensure the existing ramps comply with the Florida DOT Design Standards, Manual of Uniform Minimum Standards for Design, Construction and Maintenance for Streets and Highways (aka the Florida Greenbook) and the City's Land Development Code. If a facility needs to be installed, or if a facility is found not to be in compliance, the necessary improvements shall be incorporated into the resurfacing project in order to bring the facility into compliance. See attached the inventory of the sidewalks within the City limits with completed repairs and projected repair dates.

While inventorying, inspecting and constructing transportation facilities the City will refer to the Florida DOT Design Standards, Manual of Uniform Minimum Standards for Design, Construction and Maintenance for Streets and Highways (aka the Florida Greenbook) and the City Land Development Code for guidance of road and right of way facilities. Additional ADA resources and Toolkits can be found at the FDOT Americans with Disabilities Act (ADA) ADA / Accessibility Program and at the following website: <http://www.ada.gov/pcatoolkit/toolkitmain.htm> . During construction of new pedestrian facilities, the City continually inspects the work to assure adherence to the design and completion of the facilities. A project is not closed out until it has been verified that accessible facilities have been completed.

The City will provide reasonable accommodation to disabled individuals who wish to participate in public involvement events or who require special assistance to access facilities, programs, services or activities. Because providing reasonable accommodation may require outside assistance, organization or resources, the City asks that requests be made at least five (5) calendar days prior to the need for accommodation.
