

CITY OF PANAMA CITY BEACH

December 8, 2023

ADDENDUM NO. 1

PCB24-11 ITB FRONT BEACH AND THOMAS DRIVE ROADWAY LIGHTING REPAIR AND IMPROVEMENT PROJECT

Questions:

1. For the purpose of wiring/replacing poles for this project, will we be able to park a pole truck or lift on the sidewalks near the majority of the poles?

A. Yes

2. Concerning Item 9 on the bid schedule, are there currently any specific troubleshooting/issues that have been identified?

A. No, this item is for contingencies.

3. Just to clarify, Item 9 refers to troubleshooting only, with repairs (not covered in other items on bid schedule) being a change order to the original contract, correct?

A. This would not be a change order. This line is for contingencies. If a change order is needed or necessary during repairs – that would be handled at that time.
