City of Panama City Beach Firefighters' Pension Plan BCA Market Perspective © Presidential Elections and Capital Markets July 2024

History suggests that real economic growth and equity market performance are independent of the presidential party elected. Investors anticipate economic and social risks associated with any potential president, which causes uncertainty and market volatility. But as results come in and policies become more predictable, markets tend to stabilize.

Administration	Bush	Obama	Trump	Biden
Dates in office	Jan '01 – Jan '09	Jan '09 – Jan '17	Jan '17 – Jan '21	Jan '21 – Today
S&P 500 return	-4.5%	16.3%	16.0%	12.4%
Real GDP growth	1.9%	2.2%	1.8%	2.7%

As seen in the graph below, economic conditions become perceptions that are political and ideological – not based on the actual economy.

Today, the U.S. economy and dollar are strong and inflation has fallen to 3.1%. But high mortgage rates and a softening labor market are a concern. The big policy issues in play for the next four years are immigration, income taxes, foreign policy, and trade.

Investment Summary
June 30, 2024

- The Investment Policy Statement dated April 1, 2022 reduced the fixed-income target allocation from 32% to 25% and established a private real estate allocation target of 7.0%. By way of an Investment Policy Addendum, Sterling Capital Management has a separate investment policy target allocation of 57% equities and 43% fixed-income. Sterling's managed portion represented 56% of the total Plan. The remaining assets are invested among low-cost indexes and other products. This blended approach reduces annual Plan fees and provides diversification outside of Sterling's offerings. When rebalancing the asset allocations to the investment policy targets is required, BCA and Sterling coordinate the process.

Performance Reporting:

1. Changes in portfolio valuations due to capital gains or losses, dividends, interest, income and management fees are included in the calculation of returns. All calculations are made in accordance with generally accepted industry standards.
2. BCA complies with the Association for Investment Management and Research Performance Presentation Standards (AIMR-PPS). Returns are time-weighted rates of return (TWR).
3. Transaction costs, such as commissions, are included in the purchase cost or deducted from the proceeds or sale of a security. Differences in transaction costs may affect comparisons.
4. Individual client returns may vary due to a variety of factors, including differences in investment objectives, asset allocating and timing of investment decisions.
5. Performance reports are generated from information supplied by the client, custodian, and/or investment managers. BCA relies upon the accuracy of this data when preparing reports.
6. The market indexes do not include transaction costs, and an investment in a product similar to the index would have lower performance dependent upon costs, fees, dividend reinvestments, and timing. Benchmarks and indexes are for comparison purposes only, and there is no assurance or guarantee that such performance will be achieved.
7. Performance information prepared by third party sources may differ from that shown by BCA. These differences may be due to different methods of analysis, different time periods being evaluated, different pricing sources for securities, treatment of accrued income, treatment of cash, and different accounting procedures.
8. Certain valuations, such as alternative assets, ETF, and mutual funds, are prepared based on information from third party sources, the accuracy of such information cannot be guaranteed by BCA. Such data may include estimates and maybe subject to revision.
9. BCA relies on third party vendors to supply tax cost and market values, In the event that cost values are not available, market values may be used as a substitute.
10. BCA has not reviewed the risks of individual security holdings.
11. BCA investment reports are not indicative of future results.
12. Performance rankings are time sensitive and subject to change.
13. Mutual Fund (MF), Collective Investment Trusts (CIT) and Exchange Traded Funds (ETF) are ranked in net of fee universes.
14. Separately Managed Account (SMA) and Commingled Fund (CF) returns are ranked in gross of fees universes.
15. Composite returns are ranked in universes that encompass both gross and net of fee returns.
16. Total Fund returns are ranked in a gross of fee universe.
17. Private investments may include performance fees in addition to a management fee. For the purpose of BCA's calculations, net returns take in consideration both performance and management fees, but gross returns include management fees only.
